

Mixing Modern and Traditional

A DINING ROOM DESIGNED BY ANJUM RAZVI, ASID

The word "eclectic" takes on new meaning in this formal dining room with fireplace. Warm gold walls in a decorative paint finish are background for a Baker Furniture buffet in an unusual shade of red with hand-painted birds in pale gold. In contrast, the silver-leaf mirror is very contemporary. A Travers animal print softens the clean architecture of upholstered dining chairs. Dark hardwood floors set off a light sisal rug. Even the art is a mix of antique French prints and more modern pieces.
